

“Helping one person might not change the world, but it could change the world for one person”

Can we help Belinda?

If you hear Belinda's* story, you'll want to get involved. It is a tale of lady who can't eat and who is in constant pain. Due to **illness** and **cancer** medications, she battles countless long and short term repercussions on a daily basis, (including significant weight loss), many of which stem from the fact that her **teeth** have **disintegrated**, leaving her in **chronic pain** and suffering from persistent **fungal infections** in her mouth.

She's been living like this for years, covering her mouth when she speaks. **We want to bring back her smile, but we need you for this to happen.**

**Not her real name*

Of all people, Belinda can't afford it, but deserves to have teeth. Despite being a **widow** and having a son with special needs, she spends her free time distributing food to **Holocaust survivors** and families at risk in her area. She **volunteers** with new olim, welcoming them to Israel, providing local advice and organising social activities.

We ask for your help (either through a tax-deductible **donation** or **voluntary dental services** with your **skills** and expertise) to help cover the cost of reparative dental work by a maxillofacial surgeon (+/- NIS 35,000). It's not a cosmetic luxury and will definitely change her life.

“Bee really is a very special lady, and is completely and utterly unselfish, always willing to give of her time and energy to help anybody in need, the epitome of a female mensch! Israel is very lucky to have somebody of her calibre who is always prepared to go out of her way to do anything necessary to help anybody & everybody!” Leah N.

Is there something you can do to help?

*Kindness
can change a
person's life*
